- Chandelier component
- [Brass chain](#)
- Headpin
- Eyepin
- Round Nose Plier
- Flat Nose Plier
- Wire-Cutter Plier

### How to design your own charm necklaces?

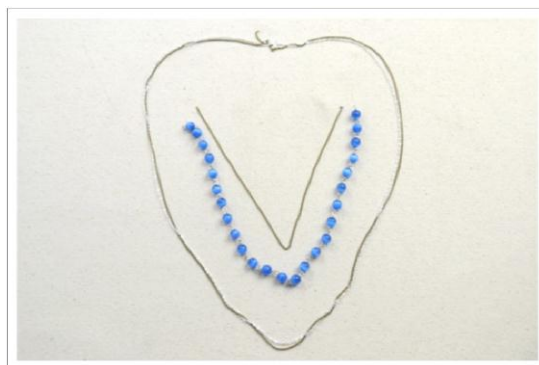

#### Step1: make the cat eye bead components

1. Slide one cat eye bead on proper pins and loop the end with Round Nose Plier. In today's personalized necklace, you'll need to make 4 groups with headpins and rest 20~25 with eyepins;
2. Pick out the ones on headpins and attach them onto the loops on Chandelier component;
3. Hook the groups with eyepins one after one for a beaded chain.

### Step2: prepare the needed chains

1. Cut a strand of Antique Bronze shorter chain than the beaded chain. On its center, we'll later hang on the bunny pendant;
2. Snip another two long strips of Antique Bronze and Silver ones. Ensure that are far longer than the beaded chain;

### Step3: attach on pendants

To the shortest chain, add on the bunny pendant; Then the well-decorated chandelier component onto the two long chains.

3. Open the loop at beginning bead and hook on proper positions at all three chains.

### Step4: make a complement

Simply adding on a pair of closure for your charm necklaces or connect the separated chains with jumprings.

That's all things about my personalized necklace. What about you? I love the simple chains and stunning cat eye beads the most. So just play around with your things and whip up an array of charm necklaces.
