

Easy hand crafted beaded jewelry plan-a piece of Easter necklace

In the hand crafted beaded jewelry plan you will learn to create a piece of Easter necklace. The bright egg-shape beads collection will be definitely an ideal choice for spring and summer.

Last week, after the sweet Valentine's Day, I finally get some spare time on my new hand crafted beaded jewelry piece for the next holiday-Easter. In it, I make use of the very cute beads which are with egg-shape and vivid candy-like colors. Once had tried making this Easter necklace, you may catch all people's attentions on that day.

Things will need in Easter necklace:

- [Gemstone bead](#)
- [Sewing thread](#)
- Jumping
- Clasp
- Chains (in 2 different sizes)
- Wire-cutter Plier
- Needle (optional)

Instructions about hand crafted beaded jewelry:

Step1: prepare the chains

In the Easter necklace, you will need to prepare two types chains: chunky and slender. And then snip the slender one into two pieces and assemble chunky one to center position by Jumpings and Wire-cutter Plier.

Step2: design the hand crafted beaded jewelry portion

Thread the beads onto thread one by one.

Do not squeeze too tightly. Make sure the length of it is a little longer than then chunky chain;

Next, tie thread to the two ending loops on chunky chain. Remove all extra thread; Measure an ideal length for your Easter necklace and adjust the length of two slender chains. Ensure they are symmetrical and attach clasp onto one end.

Done!

See it? With just a few segments of chain and Gemstone beads, you can make this cute Easter necklace. Wanna making more hand crafted beaded jewelry for you own and some special ones, please just stay tuned!
