

Personalized necklaces designs-DIY ribbon necklace along with hardware

Have you even imaged that whip up a DIY ribbon necklace along with a few stuffs from the hardware store? In this post I will show you such type of personalized necklaces in details.

Today's post is about a hardware style hack. We'll get started with a regular DIY ribbon necklace and a few supplies from the hardware store. With an open mind and imagination, it becomes possible to create personalized necklaces from nuts to pipes. In the following contents, you will see three types of necklaces. Choose your favorite color and try creating something.

Materials needed for personalized necklaces:

- Hardware stuffs
- [Stain Ribbon](#)
- Tape
- [Scissors](#)

How to work the DIY ribbon necklace?

Step1: pick up the hardware components of your choice. The most widely used elements are the nuts, tubing and piping pieces.

Step2: roll up one end of your ribbon with tape and then thread and arrange the hardware components on your ribbon.

After that, it consist a DIY ribbon necklace at once.

Tada! Can you just say it is a DIY ribbon necklace or something else really shows your statements and creativities? Besides the personalized necklaces, you can also try bracelets or earrings. You can add the distinctive touch with each piece you do. Just be creative! Every little part makes big difference!

Step3: try more other collections and patterns.
