

Radiant beading jewelry patterns- Easter radish polymer earrings

3 simple steps to realize the distinct beading jewelry patterns; they are very cute Easter radish polymer clay earrings knockoffs from movie Harry potter.

After watching Harry Potter, some of you may have paid more attention to Luna Lovegood's earrings. They are very cute, right? And now for welcoming the Easter day, you need to prepare some gorgeous gifts for guests, for example Easter radish polymer earrings, fancy beading jewelry patterns!

The materials and tools:

- [Earring hooks](#)
- Eye pins
- Polymer clay
- Round nose plier
- Flat nose plier
- Wire cutter
- Oven

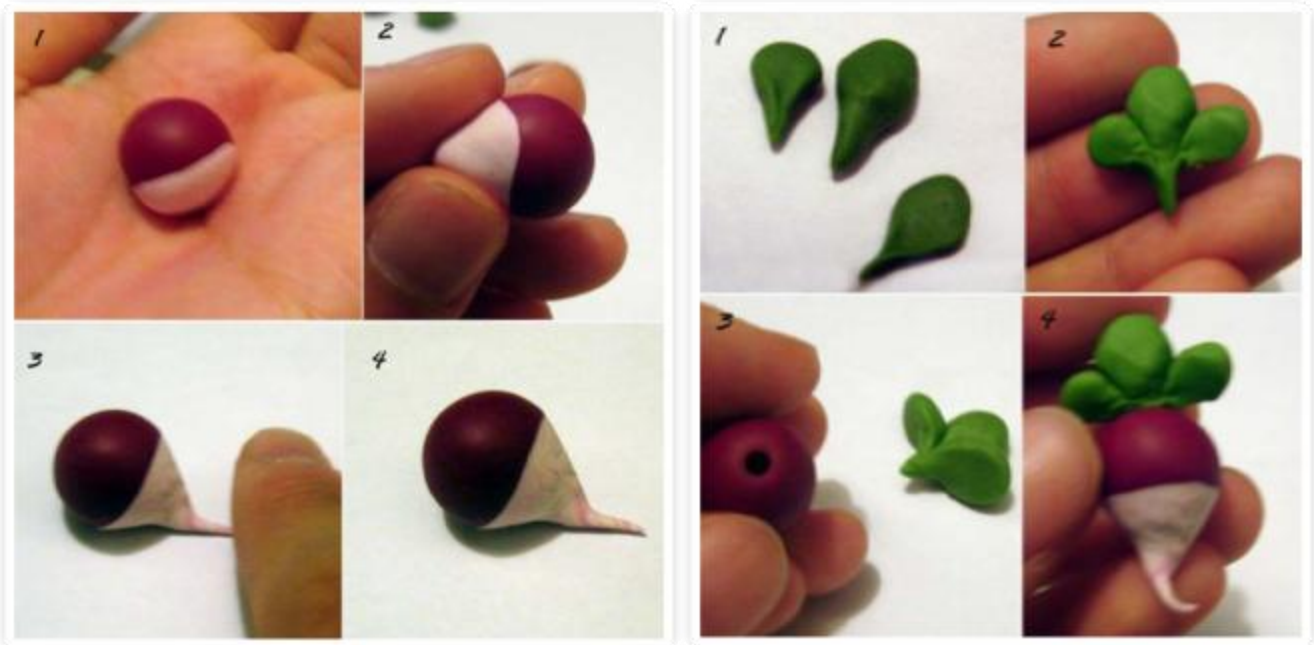

The overall instructions:

Step 1: pinch clay into radish shape

1st, pinch red clay ball and pink clay ball together, round the combination and shape it into radish;
2nd, drag a wisp of pink clay from radish to make the fiber look.

Step 2: complete radish with leaves

1st, fetch green clay to pinch 3 leaves;
2nd, combine them together and attach them to the above radish;
3rd, poke an eye pin through the whole and bake it into an oven according to corresponding instructions.

Step 3: attach ear hook on

Attach earring hook to the eye pin with plier.

So here we have the finished Easter radish earrings! We will collect and prepare more lovely and novel beading jewelry patterns for you- our dear readers and supporters! In the warm season, we hope you have a nice Easter holiday.
