

Free beaded jewelry designs-Swarovski necklace and earring set

Looking for ways to make glamorous beaded jewelry designs? Use this easy tutorial for making an eye-catching Swarovski necklace and earring set. It's easy, versatile and worth trying!

Swarovski crystals always make exquisite jewelry. With their vast inventory of colors, shapes and sizes, they can be used in many designs from delicate to bold and classic to chic. Swarovski beads are as pretty and as versatile as most precious gems. The ideas for making beaded jewelry designs with these beads are actually endless. This week, we have for you a wonderful sample of a Swarovski necklace and earring set that you can make with Swarovski crystals.

Materials needed for his beaded jewelry designs:

Swarovski Crystal Bead:

- 10mm [Faceted Round](#)
- 8mm Abacus

Findings and tools:

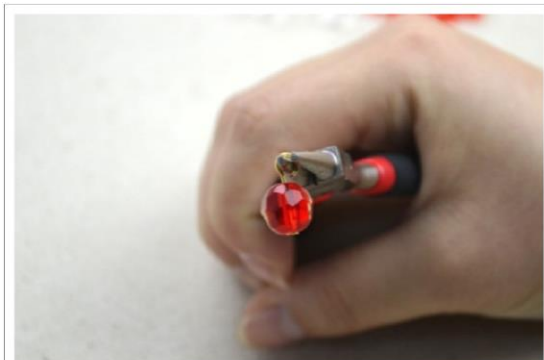

- Eyepin
- Headpin
- [Earring Hooks](#)
- Chandelier Component
- [Chain](#) (2 sizes)
- Brass Wire
- Side Cutting Plier
- Flat Nose Plier
- Round Nose Plier

How to make the Swarovski necklace and earring set?

Step 1: Prepare your supplies

1. Choose a proper-length headpin and a Swarovski crystal bead. String each bead on a headpin and make a simple loop with 6mm of wire.
2. Trim off the leftovers and do repeat for each bead. Next, remove a ring off from the shorter chunky chain.

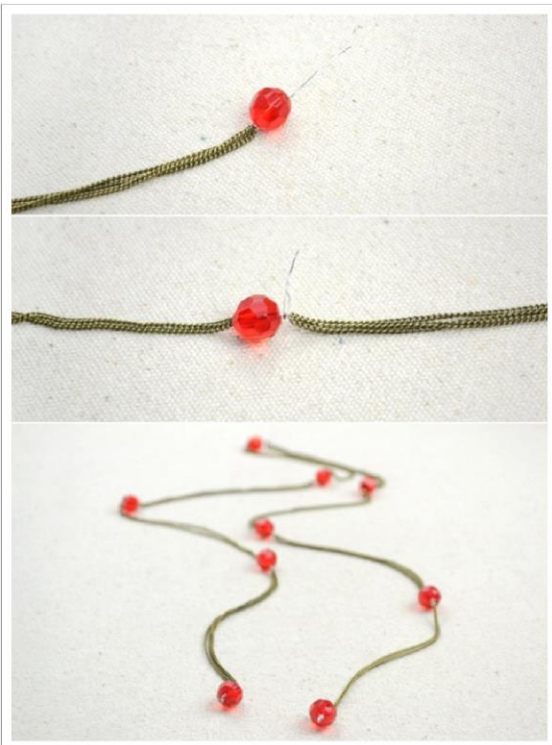

Step 2: Make the necklace

1. Take one of the chandelier components and a strand of 0.3mm silver brass wire long enough to fit all your beads onto. Fold the wire in half and pass through the loop on chandelier. Bring the ends together.
2. String all the beads onto the wire to create a strand of dangles. First, thread one bead loop per wire; and then thread both wires through one bead loop. Finally, secure the dangles onto the wires by twisting the wire ends a couple times.
3. Repeat the same processes until you have no more dangles. Next, once you have reached the desired length for your dangles, you will want to attach the leftover wire tails on the chain link that you cut off on step 1.2.
4. Trim the excess wires.

5. Snip the thin chain into several 6cm segments. Connect 2 or 3 strands into a group with brass wire that you have previously threaded a 10mm faceted round Swarovski bead onto. Repeat until you reach the desired length for your handmade chain.

6. Join both ends of the chain with the dangler and two jumprings. You've just finished your necklace.

Step 3: Make the earrings

1. Prepare the dangle pieces as shown below.

2. Attach the dangles and the earring hook onto the chandelier component.

3. Repeat the previous step for the second earring. You now have completed the pair.

Now, take a look at your beautiful Swarovski necklace and earring set!

Love them? What an effective way to incorporate eye-catching texture into your beaded jewelry designs! This pattern and the color combination will definitely make you stand out from the crowds. If you are thinking of making a more classic or formal Swarovski necklace and earring set, we suggest that you use a white and black color palette. Hope you love this tutorial!
