

Homemade jewelry ideas-how to make a pair of exquisite dangling earrings

Earrings consist of versatile beads have been around for all ages. And in the new homemade jewelry ideas, I will show you the way making an earring hook with a headpin. All stuffs needed are inexpensive and easy-get.

There are various ways to whip up and practice homemade jewelry ideas. When it comes to individuality and personality, the more you customize the components, the more prominent will the item be. In my new earrings, I try diy all elements by my hands and the result is not too bad. So, just keep reading if you wanna see them.

Supplies in homemade jewelry ideas:

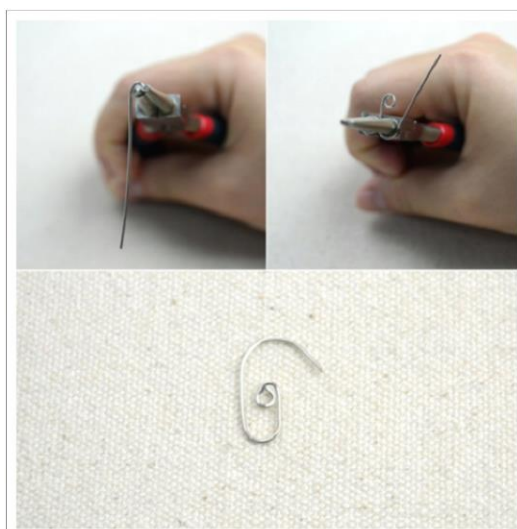

- Drop [Cat Eye Bead](#)
- 2mm Round Seed Bead (transparent)
- Long Eyepin
- Ear Stud
- 0.5mm [Brass Wire](#)
- Side Cutting Plier
- Flat Nose Plier
- Round Nose Plier

Details about the homemade jewelry ideas:

Step1: make your handmade earring hook

1. Grab the loop on pin, rotate another half turn in consistent direction to make the loop face inwards;
2. Around the bottom location on round nose plier, form a radian at opposite;
3. Curve the rest pin then.

Step2: make the dangler

1. Snip a 30cm long brass wire, thread a seed bead to the center location, then pass through the drop cat eye bead to top with two ends together.

2. Make a wire wrapped bail. (For the detailed instructions, please head over to our Wire Wrap Technique)

Step3: assemble two parts

Slide the dangler onto the earring hook;

Add on the earring stud.

Tada!

The entire step-by-step guides about this pair of delicate earrings are showcased. What do you think? If you love them, please just stay tuned! I will update more homemade jewelry ideas in ensuing weeks.
