The how to make macramé bracelet tutorial features its chevron braided pattern and glittering golden beads; enjoy the gold beaded jewelry with us.

As you go with our tutorial "how to make macramé bracelet", you will find that this gold beaded jewelry can shine under sun and glimmer even if in dull glow, always seeming to encourage us and bring in some warm atmosphere.

Materials and tools:

- 1mm black [nylon thread](#)
- 1mm pink nylon thread
- 6mm gold [bicone beads](#)
- Scissors
- Lighter

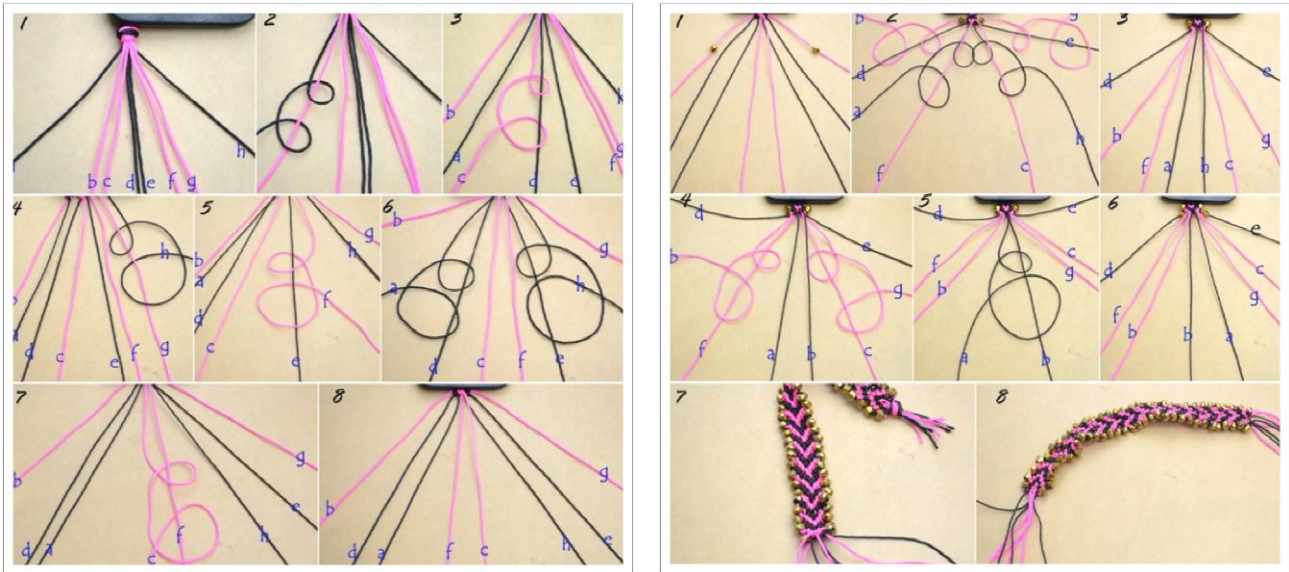

Instructions:

Step 1: make the first two rows for chevron pattern

1st, snip 8 strands of threads averagely in black and pink colors; then knot the top ends;
2nd, align the strands in the order as picture shows (a-h); tie forward knot with an over b, so the place of a and b are swapped round;
3rd, similarly tie forward knots with cover d, h over g, and f over e; and their places all get exchanged; form pic 2-5 the first row is done;
4th, continue tying knots with an over d, h over e and cover f; so the second row is done, as pics 6-8 show.

Step 2: weave the last two rows and repeat

1st, add 1 bead onto b and g separately, and again tie forward knots with b over d, an over f, h over c and g over e; from pic 1-3, the third row is finished;
2nd, knot with b over f, g over c and an over b, so the first column is done;
3rd, repeat the two steps until it reaches your desired length;
4th, untie the top end knot.

Step 3: end up the beaded macramé bracelet

Tie the two ends together and cut off excess threads.

Tada, your gold beaded jewelry is done! Often check back this board, besides how to make macrame bracelet tutorial, you will find more interesting and creative projects here.
