

DIY fashion necklaces-design and create your individual fashion necklaces

Statement necklaces are an instant way to spice up any outfit, without any extra adornments. Whether you match such fashion necklaces with basic T-shirt or splendid party dress, it can be actually fantastic.

In recent days, I am head over heels for all things appear with exaggerating design and color collocation, such as today's project about one of my favorite statement necklaces. The combination of bold and vintage, a little luxury golden findings and trendy turquoise beads are just what most essential for the fashion necklaces.

Materials for statement necklaces:

- Triangle turquoise bead
- 8mm gold Spacer Bead
- 10mm black Hematite Bead
- [Cord end tip](#)
- Wire Guardian
- Crimp bead
- [Clasp](#)
- Jumpring
- [Leather cord](#)
- Tiger tail wire
- Glue
- Wire-cutter Plier
- Scissors

Instructions for creating fashion necklaces:

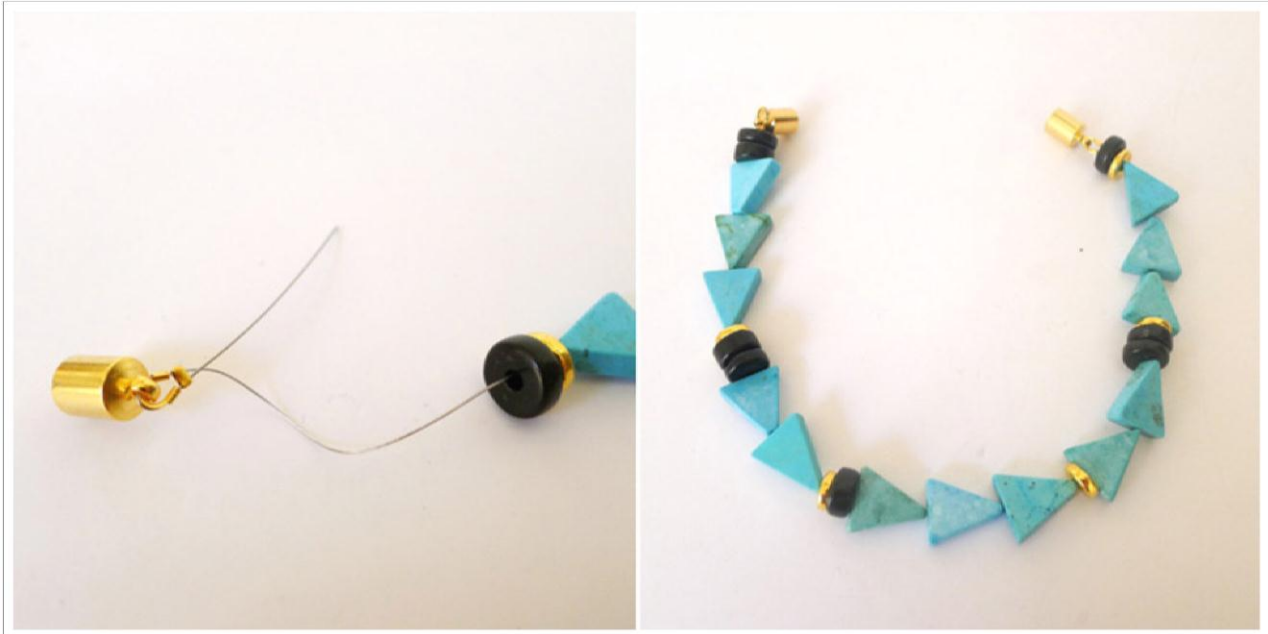

Step1: arrange your beads on wire

Cut a long strip of tiger tail wire and slide the following beads onto it. Organize all beads into the orders you like.

Step2: deal with the two wire ends

1. On the end, thread on the crimp bead, wire Guardian and a cord end tip;
2. Direct the wire tail back through the crimp bead and then firmly squeeze the crimp bead;
3. Tuck the tail inside your adjacent beads or trim off excess part directly;
4. Do repeat the same processes on the other side.

Step3: attach on the cords

1. Drip several glue into the cord end tip and feed the cord tip in;
2. Cut the cord in half and then glue on two extra cord end tips;
3. Wait it to dry completely;
4. Add on the clasp and one matching jumpring.

And we're done! Actually, it fits any style properly. And while designing and creating the fashion necklaces or statement necklaces which are really very I, the hardest episode was gathering all beads and findings of your choice together. Whatever, every little effort will pay off. Just stay the course!
