

Make bracelet and ring attached- brief and elegant Easter bracelet and ring chain

This bracelet and ring chain tutorial aims to show you how to make bracelet and ring attached and create a beautiful novelty which can attract others' attentions.

Recent years have witnessed many kinds of body jewelry; some are weird, like lip (or nose) ear chain piercing; some are novel and attractive; at least which can be accepted by most of jewelry crafters, such as this Easter bracelet and ring attached one. You must love it- the simple and elegant bracelet and ring chain.

Materials and tools:

- [Silvery chains](#)
- [Rabbit pendant](#)
- Jump rings
- Wire cutter
- Flat nose plier

Instructions:

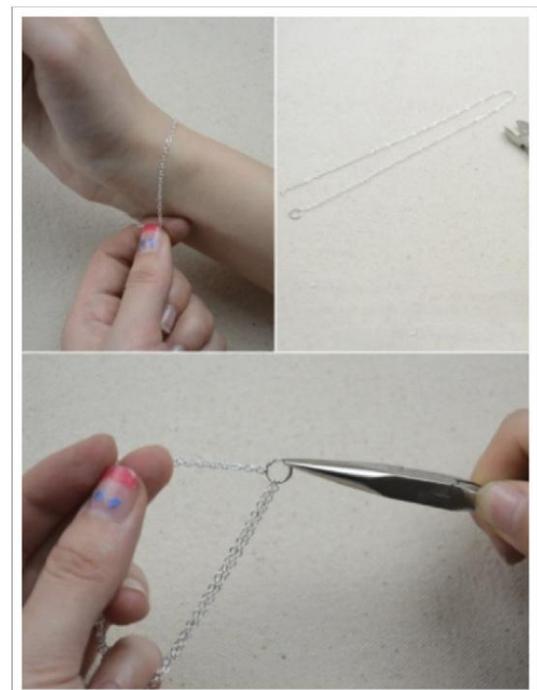

Step 1: make chain bracelet

1st, wrap chain around your wrist once and pinch the junction point to decide chain length;

2nd, attach a jump ring to one end, double the chain length and snip it;

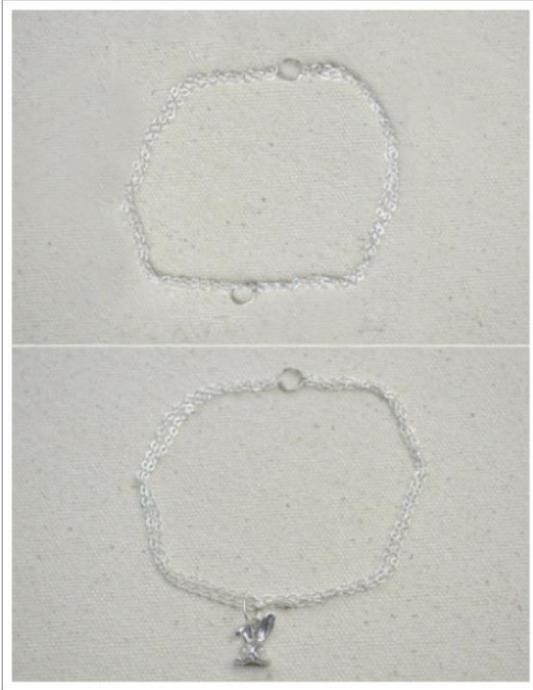

3rd, use the jump ring to combine the other end and junction point together.

The chain bracelet is finished!

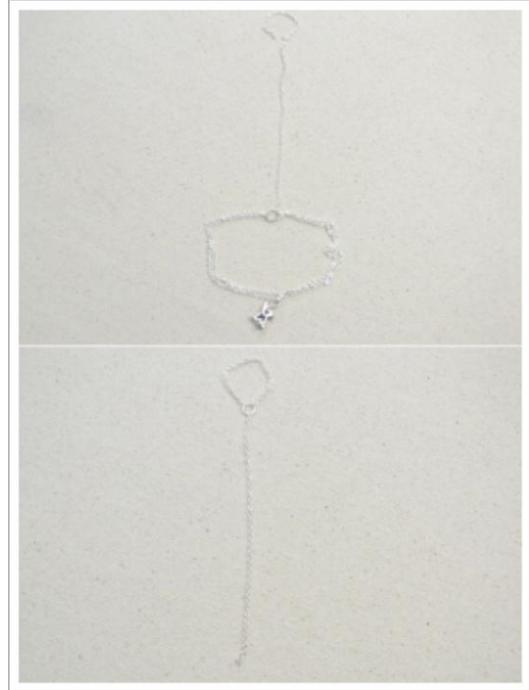

Step 2: adorn bracelet with Easter rabbit

1st, attach another jump ring to the link opposite to the previous one;
2nd, slide an ester rabbit pendant to the jump ring.

Step3: make ring and attachment chain

1st, snip about 7cm length of chain for attachment and 5cm length for ring;
2nd, use a jump ring to combine ring chain and attachment chain together.

At last, open the first jump ring on bracelet, connect both parts together:

So far the tutorial of bracelet and ring chain is completed! One more suggestion for this project: if you want a different burnish for this bracelet and ring attached jewelry, you might as well add beads and bead caps to adorn at the attached place.
