

How do I make jewelry-make your own jewelry ring out of buttons

How do I make jewelry? Below is a cute, amusing, simple and significant Mickey Head ring. Get started make your own jewelry creations! You'll never just receive a piece of bauble but something else.

Learn to make your own jewelry is another method to express your individual style and desires for life. For those who ever obsessed in Disney cartoons in childhood, this mickey head ring must have reminded you of the paradise filled with beautiful and wonderful memories once more. In the following episodes, you will get to know how do I make jewelry ring out of 3 pieces of button and 1 segment of brass wire.

Supplies needed:

- 0.5mm [brass wire](#)
- 0.3mm brass wire
- Buttons (13&21cm)
- Side Cutting Plier
- Round Nose Plier
- Glue gun

How do I make jewelry ring?

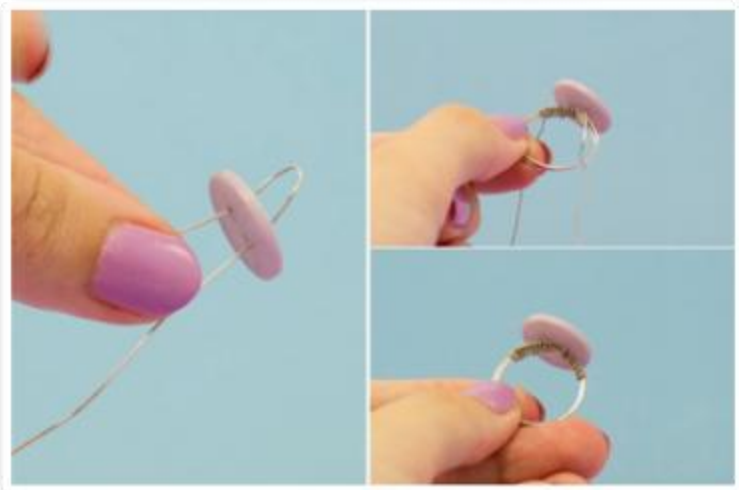

Step1: make the ring band

1. Take the thicker 0.5mm brass wire and wrap it snugly around your selected finger for about two full turns;
2. Remove the excess part and then take the coils off your finger.

Step2: add on the button adornments

1. Snip another 30cm long 0.3mm brass wire. Find the center position and then thread two ends through two holes of your larger button respectively;
2. Anchor the button faced up over the ring band. Wrap the rest wire around band slowly but firmly. Decide the ideal wrapped area and trim off extra portions. Do same processes to both sides;
3. Heat up your glue gun and attach two smaller buttons onto either side of the ridge of larger button, these will be ears of your mickey.

Let the glue dry and you are able to wear your interesting mickey head ring at once. If you follow the way how do I make jewelry, just post it and let me know, that would make my day.
