

DIY hemp bracelet-ingenious bracelet ideas with string

Today's bracelet ideas with string are mainly for the friendship fancier. This DIY hemp bracelet pattern is a great starting point for those who wanna make a pure twine bracelet without any beads.

Regard to the issues on DIY hemp bracelet, I'm just going to link that to any common patterns along with weaving and knotting. Simply, in this post it is also one episode among mass of awesome bracelet ideas with string.

Supplies you'll need in DIY hemp bracelet:

- Hemp twine
- [Brass wire](#)
- [Tibetan bead cap](#)
- Lobster Claw Clasp
- Matching ring link

Instructions for the bracelet ideas with string:

Step1: attach hemp string to the ring link

1. Cut 3 strands of hemp twine, each may reach a length of 150cm long;
2. Double them in half and attach the folded location onto ring link by working one Lark's head knot.

Step2: do the braiding

1. Take the 6 new working ends and divide them into three parts;
2. Start to braid;
3. Do not end plaiting until that reaches about 60cm long.

Step3: add on the bead cap and clasp

1. Wrap an eyepin component out of wire and round nose plier;
2. Tie all leftover hemp tails to the loop tightly;
3. Secure with drops of glue;
4. Remove the excess hemps and pass the pin through your bead cap from bottom to top;
5. Thread on the clasp, loop the remaining pin and wrap the rest wire around the little neck part.

Thus far, it's time to cease the DIY hemp bracelet tutorial. What you have to do is put it on your wrist and clasp it! The metal linking ring and clasp may turn out to be a focal point on your entire bracelet. However, take your supplies and whip up more fabulous bracelet ideas with string.
