

ω rap

A handwritten ledger is shown on a piece of white paper held by a silver binder clip. The ledger consists of two columns of numbers and dates, with a summary section on the right side. The paper is placed on a dark gray surface.

+ 500	27/3	- 350	15/4
- 49.24	27/3	- 326.41	17/4
- 174.27	27/3	- 396.	17/4

- 68.57	4/4		
- 26.18	4/4		
- 115.96	9/4		
+ 500	13/4		
- 31.60	13/4		
- 407.76	13/4		
- 50.36	14/4		
- 135.75	14/4		

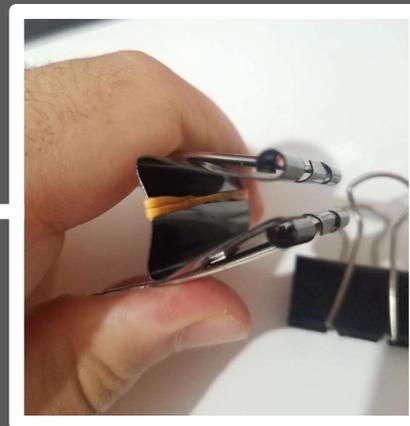

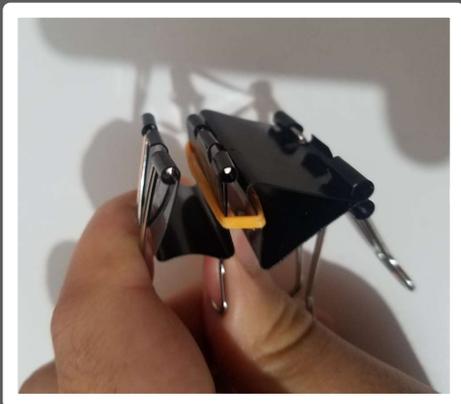

1.Changing Function “BINDER PHONE STAND”

To make this phone stand, you will need two different sized binder clips and rubber bands. I'll be using two small bands to keep them tight as possible.

Secondly, you want to bring the smaller binder and insert the outside band in its mouth.

Firstly, start by putting the rubber bands in the bigger binder's mouth and let it rest on the outside of it too.

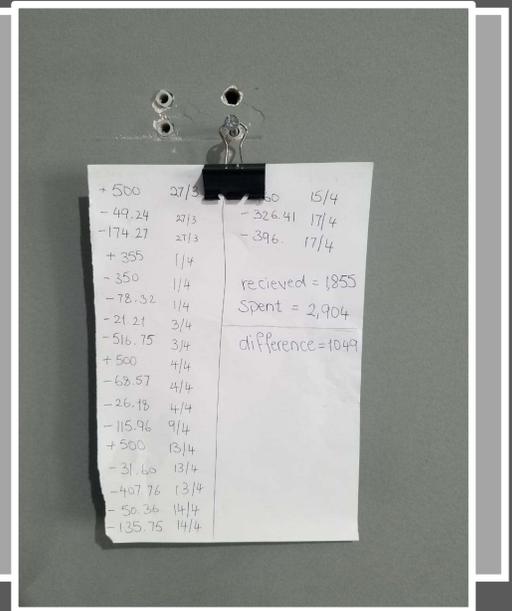

Now, let both binder clips' outsides against each other. And there you GO!

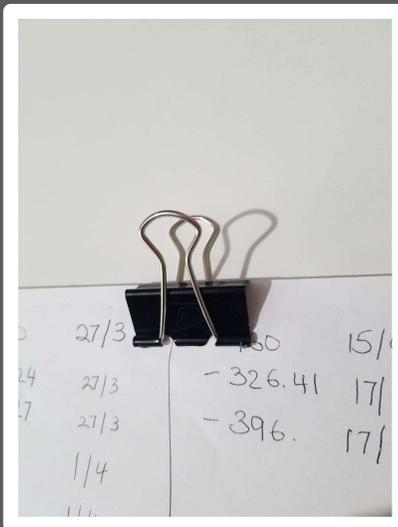

Now feel free to insert your phone between both binders.

Wrap

2. Adding Function "NOTE HANGER"

Firstly, get the notes you need to hang and get a binder clip and clip your notes

Now, Unhooked and dislocate the rod that is faced to the front of your note.

Now, using the other rod of the binder to hang it on a nail on the wall, due to the structure of the binder clip it has a semi circle handle which can hold the note without the fear of slipping from the hook or you can hang the binder on a magnet on your fridge due to the fact that the binder is a metal structure that will help in sticking on the magnet.

3. Enhancing Function “BINDER OPEN LOCK”

To make a binder open lock, you will need a regular sized binder clip with a minimum 4.5 cm wire, depending on how open you need to open the binder clip, you will need it to be shorter.

You will need to do the same on the other side, lock it tight. If you want the option of closing the clips' rods, then keep the other side as a hook shape.

Then, you will need to make a loop on one end onto one of the clips' rods and lock it close. Make sure to keep enough wire for the other side.

And there you GO!!!
Now you don't need to ever hurt your fingers by holding it open for long times again.
