

Introduction: Your first Minecraft house, most likely a basic wooden structure, may get old. You'll want to build amazing castles and recreate wonders of the world! Here, you can find a safe, easier medium.

Parts/Resource List: Wood (any type), open space, glass, trapdoors, ladders, leaves, bone meal, and a tree plant

Step Number: 1

Step Title: Setting up a base

Screenshot(s):

Description of Step: Using wood of your choice, build a simple 5x5 hollow square.

Step Number: 2

Step Title: Tower Power

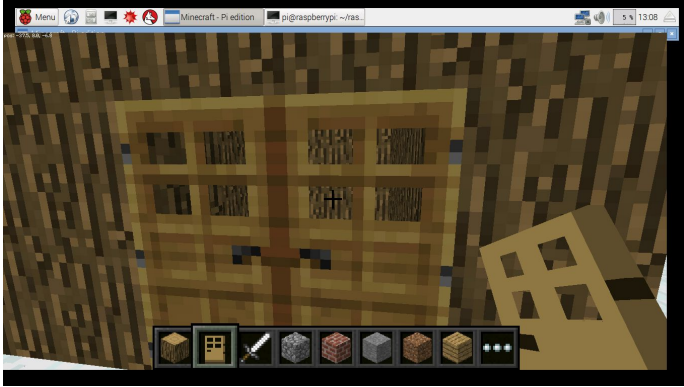

Description of Step: Now that you have something to build on, make it tall as you want. Keep in mind whether you want it to rise and graze the skies or have it small and secretive. For this guide, I will increase its height by 5 blocks. When setting up the walls ensure that one wall remains undone for easy access to reconstruct the interior.

Step Number: 3

Step Title: Tree Sweet Tree

Screenshot(s):

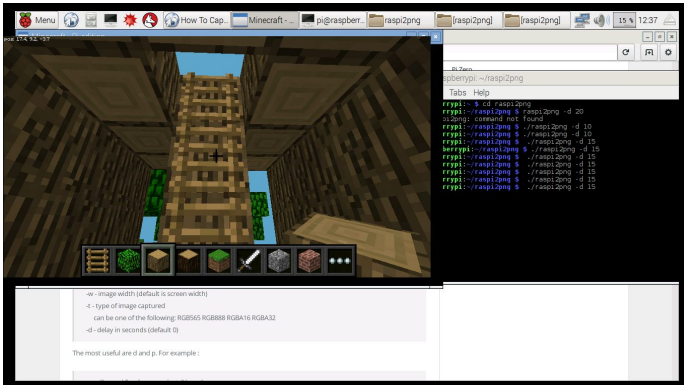

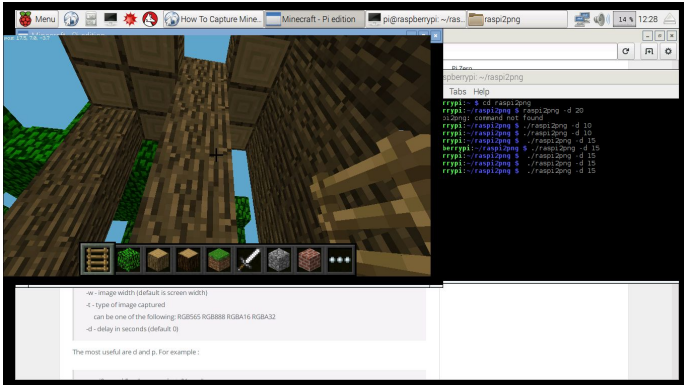

Description of Step: Break a small portion of the wood to make room for a door(s) (each door is 1x2). You may have double doors (two doors aside each other) or a simple single door.

Step Number: 4

Step Title: Climb, Climb, CLIMB!

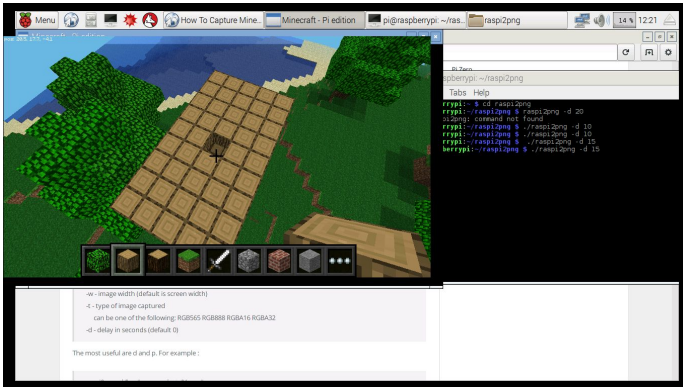

Screenshot(s):

Step Number: 5

Step Title: Extend and Balance

Screenshot(s):

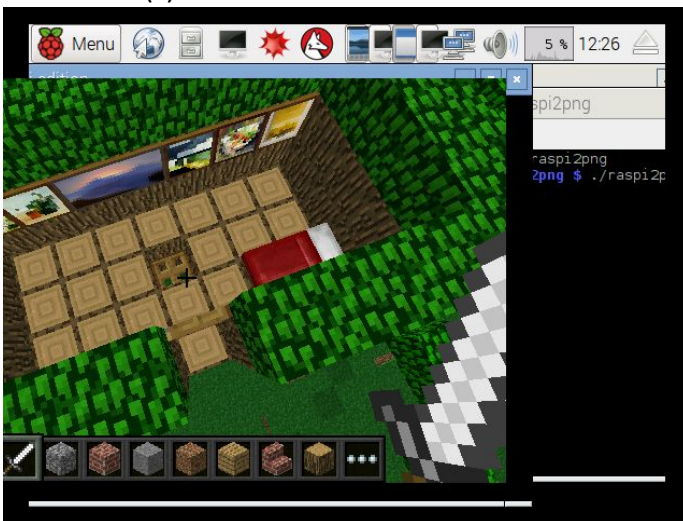

Description of Step: Set a foundation for the room (fill in walls) Even in the final product a hole should remain between floors for flying/climbing between floors.

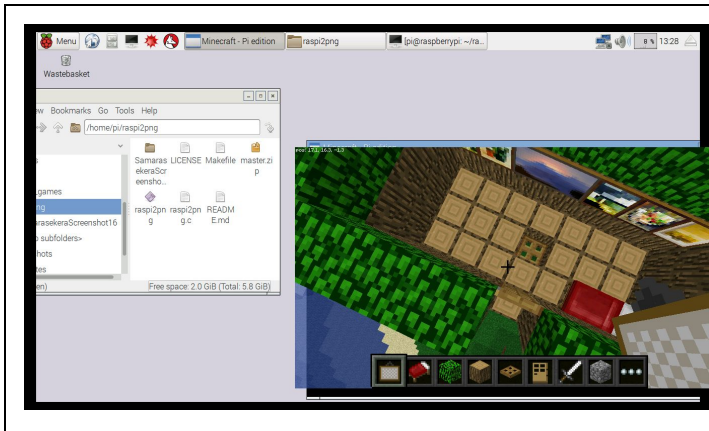

Step Number: 6

Step Title: Embellish your Tree

Screenshot(s):

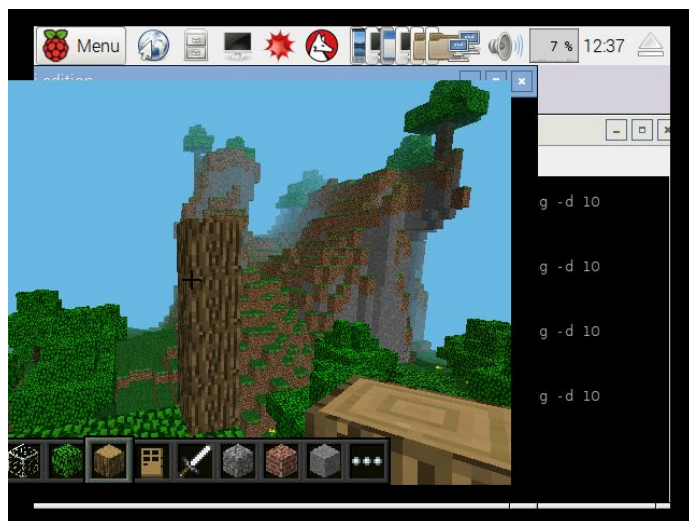

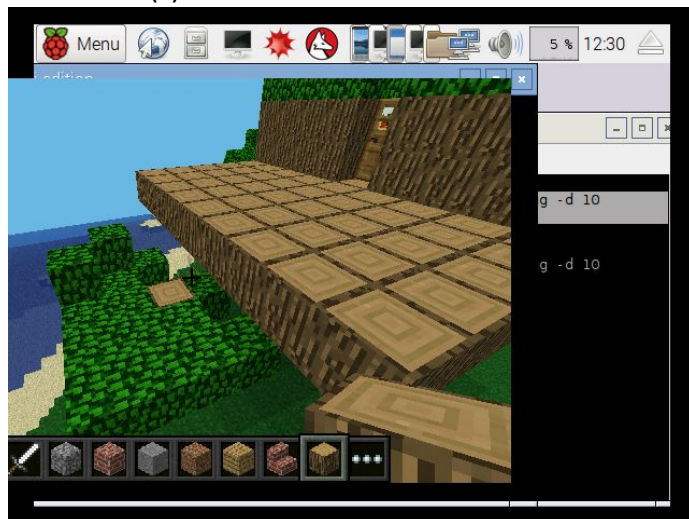

Description of Step: Add leaves (not in a particular order/proportion) and add various decorations (optional).

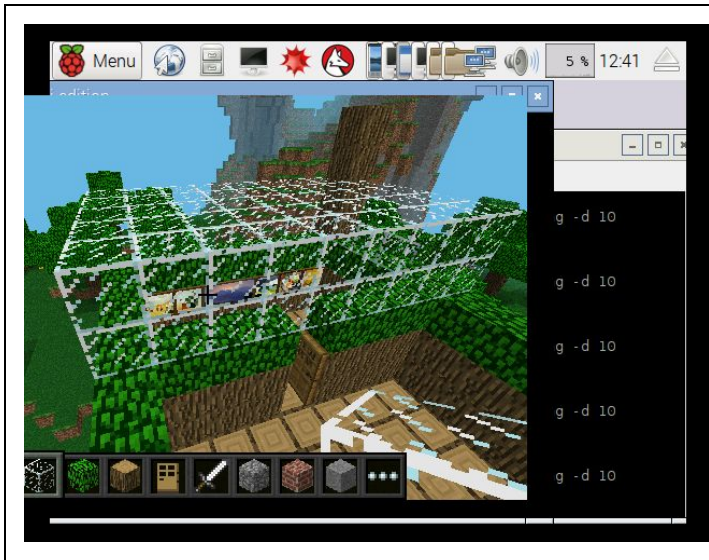

Step Number: 7

Step Title: Miracle Grow

Screenshot(s):

Description of Step: Extend your tree even further, otherwise it will be too narrow. I added a 5x9 chunk of wood for another room. Then, for multiple floors, add a 1x4 pillar of wood as a base. Next, line the entire room with glass and build the glass up for a total of 2 layers.

Step Number: Climb, Climb, Climb, AGAIN

Step Title: 8

Screenshot(s):

Description of Step:As before break a block at the top of the glass layer and then add the wood ladder to be able to get to the top.

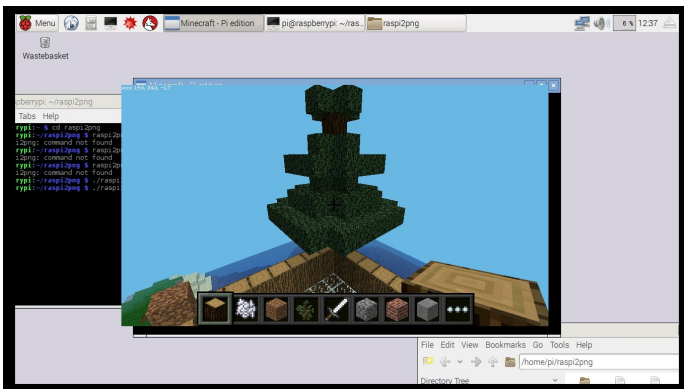

Step Number: 9

Step Title: Sharp Sights To See

Screenshot(s):

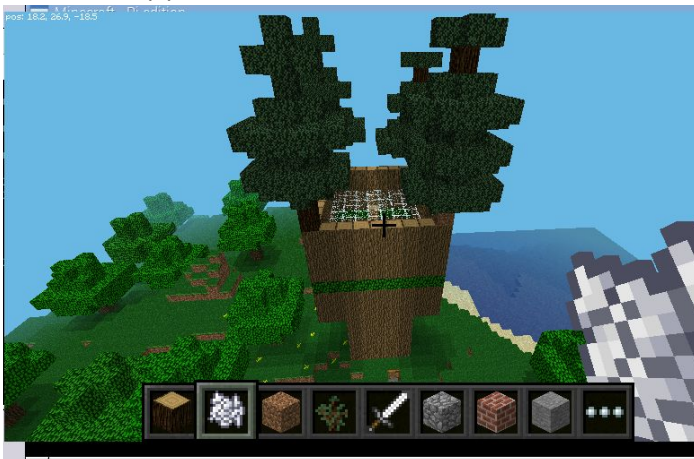

Description of Step: Destroy the glass blocks on the leaves, only the ones atop of them. Do this for all sides of the first room. As you destroy, add wooden walls atop of them.

Step Number: 10

Step Title: Get a Green.. Thumb? Block? Hand? Hand-Block Thingamajigger?

Screenshot(s):

Description of Step: At this point, you should have a lovely glass layer above your room. In each of the newly placed wood walls place a block of dirt and plant a tree and use bone meal to grow it instantly.
