

# Peer Review: Gallery Walk

#

Remember to be constructive: acknowledge the positive and give specific feedback on what is working and what can be improved upon (no yes and no answers).

## 1. Describe.

What things do you see? Describe the elements in the project (ex. materials, techniques).

## 2. Analyze.

How are science, engineering and technology included in the project? Describe where you see it.

## 3. Interpret.

How does the project convey the overall theme of the workshop?

## 4. Decide/Evaluate.

Do you like this project? Why or why not? What is the best thing about it? What can be improved?
