## How to make the box

1. Take the prints and cut out along the solid line.

2. Fold along the dotted lines and join them all the parts.

3. After putting in your gift(s) close it in a manner that extra part of sleeves sides and shirt sides are flushed into the box while the other edges remain outside as shown.

4. Print out “Neck” and “Stripes” onto a sticker sheet and cut it out. Paste on your box to give it finishing touches.

Note: Printing must be done on A3 Paper so that dimensions don't get compromised. Final dimension are 11" x 9" x 3".
